SAS Consultant Opportunity

Organization Overview
The National Institute for Children’s Health Quality (NICHQ) is a mission-driven nonprofit dedicated to driving dramatic and sustainable improvements in the complex issues facing children’s health. We provide deep expertise in building and managing effective change strategies that align partners and engage participants to achieve better outcomes for children’s health. At the heart of what motivates us is the belief that children and families deserve better systems and supports so that every child achieves their optimal health. Because of this belief, addressing social determinants of health, eliminating health disparities, and achieving equity are central to our mission. We believe that by creating a culture of diversity, equity and inclusion, we will similarly foster greater strength and resilience within and beyond the organization.

Position Overview
NICHQ seeks a skilled SAS analyst to serve as a consultant and contribute to quality improvement and evaluation activities related to the New York State Birth Equity Improvement Project (NYS BEIP). The New York State Birth Equity Improvement Project (NYSBEIP) is a learning collaborative to develop and implement the best, safest and most equitable care for Black birthing people in New York State. Through this project, over 70 New York State birthing facilities are working to identify how individual and systemic racism impacts birth outcomes at their facility and take action to improve both the experience of care and perinatal outcomes of Black birthing people in the communities they serve. The consultant brings extensive knowledge of and experience in data analytics and reporting with SAS and applies that knowledge to create successful data products and disseminate project findings. This individual will work closely and collaboratively with members of the NYS BEIP project team.
