Early Childhood Comprehensive Systems (ECCS) CoILN Project Map

OVERALL AIM
Thriving at Three

The ECCS CoILN aims to improve outcomes in population-based children’s developmental health and family well-being. Within five years of the program start, participating ECCS Impact Grantees will strive to show a 25 percent increase in age appropriate developmental skills among their communities’ 3-year-old children.
IF THESE CONTEXTS EXIST...

A collective impact approach by means of a backbone (hub) organization at the state and community level

Linked, aligned and coordinated systems with data infrastructure that promote communication, continuity and cross-sector collaboration

Advocacy and policy change at the local, state and federal level to support families and promote healthy child development

AND THESE STATEMENTS ARE TRUE...

All ECCS Impact services provide the early identification of developmental needs

All ECCS Impact services promote developmental health and are available, accessible, high-quality, coordinated and useful to families

All ECCS Impact families and caregivers understand their important role in child development and engage in language rich, nurturing relationships

All ECCS Impact services address the social determinants of health and strengthen families and systems to mitigate risk and maximize healthy development
3

**THEN THESE SHORT TERM INDICATORS WILL HAPPEN…**

All ECCS Impact families understand their important role in child development with an awareness of community resources that support healthy child development.

ECCS Impact communities will have capacities for data sharing and resources to promote the healthy development of all children.

All ECCS Impact families will value, explore and utilize family and community resources that promote healthy child development.

All ECCS Impact families when facing their ACE’s, current challenges and/or needs will access community resources and supports that address family stress and the social determinants of health.

4

**SO THAT THESE OUTCOMES WILL OCCUR…**

All ECCS Impact families with children birth through 3 are healthy, nurturing, safe and actively promoting the healthy development of their child.

A high quality developmental health promotion system is available for all children and families in the ECCS Impact communities.

ECCS Impact Grantee babies will be on track to achieve their 3 year old milestones.
